From the Editor's Desk...

The festive season did bring some relief for the industry as the inventory at dealer's and OEMs have come down. The sustained spread of the virus poses a downside risk to short-term and medium-term growth rate. We at Secretariat are taking measures to address the issue of the forging industry to the government.

AIFI Secretariat is in its final preparation of its third edition of Members Directory which will be launched in the upcoming month.

AIFI has conducted online training program on 20th and 21st October 2020 on "CQI 9 Special Heat Treatment Process". We have received overwhelming participation from all locations, reaching count of 80 plus participants.

As you are already aware, AIFI has built a mobile application to provide a common platform for both members and non-members. The app, is available both in Android and iOS platforms via your mobiles, the app would offer you the opportunity to discuss any topic, share your views, read our publications, have access to the latest monthly data and reports and so forth. To get the access to the app you may get in touch with us at the secretariat. Keep visiting our website- www.indianforging.org- to know more about our events and activities.

Happy Reading!!!

For Editorial Board

Team AIFI

Welcome!

NEW MEMBERS:
