## *From the Editor's Desk...*

The year 2019 started with a bang for the Association of Indian Forging Industry. We were honoured to host the 7th ASIAFORGE Meeting 2019 India held during 18-20 January 2019 at Four Points by Sheraton, Mahabalipuram Resort and Convention Centre, Mahabalipuram followed by plant tours during 21-24 January 2019 for our foreign delegates. We have received overwhelming responses from the stakeholders of the forging Industry, with confirmations from 74 sponsors/exhibitors across the globe. The conference comprised 27 technical presentations on non-ferrous forging, advanced forging technologies, simulation, tool steel, forging accessories, automation and Industry 4.0 and so forth. The one-hour long Panel Discussion on 'Disruptive Innovations that shall impact on the Forging Industry' was a major success. The Panellists included Mr. Sajjan Jindal (Managing Director, JSW Group), Dr. Ashok Jhunjhunwala (Professor, IIT Madras), Mr. Tobias Hain (General Secretary, Euroforge) and Dr. Peter Bierhalter (President, Presstrade AG) who addressed the challenges of introduction of e-vehicles and lean manufacturing. Over 800 delegates attended the event.

The Indian Forging industry is currently going through a modest phase with slump in demand for forged components and increasing inventories. We are hoping for the production to pick up in the ensuing quarters after the Lok Sabha elections.

The Secretariat is putting forth the 3rd Editions of Members' Directory and the 1st Edition of the Suppliers' Directory by the first week of April 2019. We would love to hear your feedback on the same for our future editions.

February 2019 was month of grieving for Indians. The martyrs of the Pulwama attack of 14 February 2019 that took the lives of 40 CRPF jawans as well as the deaths of the two test pilots during the crash of Indian Air Force's Mirage 2000 on 1 February 2019.
