From the Editor's Desk...

It has indeed been an eventful quarter, with the Lok Sabha elections held in the month of May, the people of India once again entrusting their faith in the BJP Government. However, the Indian Forging industry is currently going through a modest phase with slump in demand for forged components and increasing inventories. And the slump in production is expected to be present for a while.

The second edition of Forge Premier League 2018-19 was held in Chennai on 13 April 2019. The event witnessed participation from 4 companies and 130 delegates. Super Auto Forge Pvt. Ltd., Chennai retained Championship Trophy of Forge Premier League 2018-19.

In June 2019, a one-day training programme on 'Die Material, Die Manufacturing and Surface Treatment' was organized by AIFI in Pune, Ludhiana, and Chennai. About 60 delegates attended the programme across the three cities and provided a positive feedback about the sessions.

For us at the Secretariat, a lot of activities are in progress and would be shared with the members in due course. AIFI is almost ready with the Suppliers' Directory 2019 and the same will be circulated to all the members via mail in coming days.

As you are already aware, AIFI has built a mobile application to provide a common platform for both members and non-members. The app, is available both in Android and iOS platforms via your mobiles, the app would offer you the opportunity to discuss any topic, share your views, read our publications, have access to the latest monthly data and reports and so forth. To get the access to the app you may get in touch with us at the secretariat. Keep visiting our website-www.indianforging.org- to know more about our events and activities.

Happy Reading!!!

For Editorial Board
